Specialist in custom DCC installs... sound - lighting - smoke - crew - detailing - coach lighting & population

YouChoos Individual Model Locomotives

YouChoos *DCC Sound*

immersive Drive

Certificate & Quick Reference

Thank-you for purchasing a YouChoos sound decoder!

This certificate provides specific details of your decoder including your unique build number. Each sound decoder I load is individually catalogued and assigned a unique certificate, indicating the load date and an individual code...

Your decoder has unique number: NV-TEMPLATE-1058

YouChoos Sounds
SR Merchant Navy
DCC Address: 3

Included in this package:

PART NUMBER	YouChoos Sounds - SR Merchant Navy YC-MNAV
DECODER	MS series - template
SPEAKER	N/A - template

Functions:

FKey	Category	Action
F0fwd:	LIGHT	FOfwd Forward lights
F0rev:	LIGHT	FOfwd Forward lights
F1:	SOUND	Running Sounds
F2:	SOUND + ACTIVE BRAKE	Apply Brakes / Active Brake
F3:	SOUND	Whistle
F4:	SOUND	Whistle 2
F5:	SOUND	Blower
F6:	LIGHT + SOUND	FA1 / Coal Shovelling
F7:	QUICKSEL + SOLO	Quick-Select (Light) / Solo Driving
F8:	QUICKSEL#2	Quick-Select#2 (Heavy)
F9:	SOUND	Guard's Whistle
F10:	SOUND	Blower 4
F11:	SOUND	Steam Release - short
F12:	LIGHT	FA2
F13:	SOUND	Platform Chatter
F14:	SOUND	Over Point Clanks
F15:	SOUND	Rail Clack
F16:	SOUND	Coach Door
F17:	SOUND	Water Up
F18:	SOUND	Whistle 5
F19:	SOUND	Coupling Up
F20:	SHUNT + HALF SPEED	Shunting Mode / Half Speed
F21:	SOUND	Drop key
F22:	SOUND	Wheel Slip
F23:	SOUND	Whistle 4
F24:	SOUND	Door on latch
F25:	SOUND	Injector
F26:	SOUND	Whistle 3
F27:	VOLUME	Volume Decrease
F28:	VOLUME	Volume Increase

All functions are ON/OFF.

Feature Notes:

Active Braking – To slow down, choose the desired speed on the throttle, then use the Brake key to control the slow-down to that speed If you prefer more traditional throttle-based braking, simply decrease the value in CV#4, or even simpler: leave ACTIVE BRAKE switched on all the time!

Shunt Mode – Momentum/Inertia is reduced to ¼ the normal effect and the throttle range is halved to simulate driving light-engine.

Quick Select – For steam, switches from standard chuff sounds to light-engine where chuffs are quieter. For hybrid locomotives, switches engine type – usually effective only at standstill. Some steam projects contain a 'QuickSelect#2' which normally gives heavier chuffs compared to the default. For diesel, sometimes provided for alternative cold start.

Solo – usually defined on the same key as QuickSelect for light-engine on a steam loco – has various effects including reducing the effect of momentum.

SpeedLock – while the SpeedLock key is switched on, the throttle will control the engine sounds only, and leaves the physical speed of the motor unchanged.

NotchUp – for diesel/electric projects, the NotchUp key will raise the base engine level to notch 1 when standing idle. Switch off to return to idle. Has no effect while in motion. Allows you to manually rev the engine up.

Coast – for diesel/electric sounds, the Coast key brings the base engine level down to idle, regardless of the current speed. Switch off to return to speed-dependent engine level.

LowBeam – for some projects, a LowBeam key is provided which dims the forward-motion headlights.

Mute – Fades all sounds out to silent until unmuted, where sounds will be faded back to their previous level.

Volume Up/Down – Overall volume level will be decreased / increased gradually while VOLUP / VOLDOWN is switched on, eventually reaching silent or the maximum defined in the project (usually around 90%). Affects CV#266 master volume level. If you lose sound, check that you haven't simply reduced the volume to silent! Default is recommended around 65%.

Dynamic / Exponential Inertia – Linear throttle-to-speed response is not particularly realistic, so speed change is exponential as speed increases, simulating slow starts from standstill. Similarly, harder throttle requests will result in faster acceleration. This is all built-in to the project working automatically on your throttle requests.

Looping Sounds – Some sounds are looping and will continue repeating until that function is switched off.

Steam Chuff Rate – Use CV#267 to adjust the chuff rate to match wheel rotation.

Random Sounds – Some sounds may be configured to play at random intervals, usually at reduced volume.

IMPORTANT – WARRANTY INFORMATION!

Damage caused by mishandling, short-circuit, or undue force is NOT covered by warranty. Normally, a repair/replacement charge will be levied in such cases. Decoders are delicate, so please handle with care. The most common cause of damage is caused by excessive force on wires, or by short-circuit via the speaker output. Also be careful that the coloured coating on the wires does not get pulled back exposing bare wire at the solder pads, thus increasing risk of short-circuit.

More Information on Your Sound Decoder

User Sound Assignments

The following table lists the sound effect files loaded onto your decoder, with their unique sample numbers which are used in CVs to assign a sound to a specific feature. Where a sound has no Function Key listed, this indicates that it is an additional sound included in your project which you can manually assign instead of another sound – for example, an alternative whistle/horn which you can swap in for one of the default ones. Please refer to the supplied CV Table document where you can see which CV is used to assign a sound to each Function Key (starts at CV#513).

Of course there are many more sound files that make up your project, such as engine sounds, braking, set-off etc., but these are not included here – only those that are available as user sounds, assignable to Function Keys.

Random Sounds

Zimo decoders include 8 random sound generators, Z1 to Z8, which are also indicated here along with the sample number assigned to them, and whether they are to be played randomly at standstill, in motion, or both.

Likewise, please refer to the CV Table document supplied with your YouChoos sound decoder to see which CVs are used in random sound definition (CVs#744 to 767 and CVs#315 to 338).

Effect Sound Sample Number	Name	Looping	Function Key(s)	Random Generator	Random at Standstill	Random in Motion
214	Whistle		F3 (CV#519)			
215	Whistle 2		F4 (CV#522)			
216	Whistle 3		F26 (CV#691)			
217	Whistle 4		F23 (CV#682)			
218	Whistle 5	Loops	F18 (CV#564)			
219	Blower	Loops	F5 (CV#525)	Z1 (CV#744)	Yes	Yes
220	Blower 2			Z2 (CV#747)	Yes	Yes
221	Blower 3	Loops		Z3 (CV#750)	Yes	Yes
222	Blower 4		F10 (CV#540)			
223	Steam Release - short		F11 (CV#543)	Z4 (CV#753)	Yes	Yes
224	Coal Shovelling	Loops	F6 (CV#528)	Z6 (CV#759)	Yes	
225	Coupling Up		F19 (CV#567)			
226	Wheel Slip		F22 (CV#679)			
227	Guard's Whistle		F9 (CV#537)			
228	Coach Door		F16 (CV#558)			
229	Platform Chatter		F13 (CV#549)			
230	Over Point Clanks		F14 (CV#552)			
231	Rail Clack	Loops	F15 (CV#555)			
232	Water Up		F17 (CV#561)	Z5 (CV#756)	Yes	
233	Wheel Slip 2					
234	Announcement					
235	Drop key		F21 (CV#676)			
236	Drop key 2					
237	Door on latch		F24 (CV#685)			
238	Shut off			Z7 (CV#762)	Yes	
239	Injector	Loops	F25 (CV#688)	Z8 (CV#765)	Yes	Yes
240	Injector 2	Loops				
241	Come to Halt 2					
242	Come to Halt 3					
243	Come to Halt 4					
244	Apply Brakes		F2 (CV#516)			

Remember, you can always reset to the project's original configuration if you make a mess, by sending CV#8=8, though note that the DCC Address of the decoder will also be reset (normally back to 3)!

Physical AUX Outputs

The table below states how the physical outputs (for lighting etc.) are configured in your decoder. Outputs that are assigned for FKey0-12 are achieved with Zimo Extended Function Mapping (where CV#61=97). For any outputs assigned to FKeys above FKey12, Swiss Mapping (also known as Zimo Advanced Mapping) is used instead (not shown in this table).

Physical Output	Wire Colour (if wired)	FKey	Effect / Direction	Notes
F0Fwd	WHITE	FKey0	Constant (simple ON/OFF) - FWD only	FOfwd Forward lights
F0Rev	YELLOW		Constant (simple ON/OFF) - REV only	F0rev Reverse lights
FA1	GREEN	FKey6	Random Flicker	FA1
FA2	BROWN	FKey12	Constant (simple ON/OFF)	FA2

NV-TEMPLATE-1058 - YouChoos Sounds - SR Merchant Navy

CV List MS series - template – Configuration Values at shipping time

CV	Description	Value
1	Short Address	3
2	Starting voltage	1
3	Rate of acceleration	50
4	Rate of deceleration	100
5	Maximum speed	0
6	Middle speed	0
7	Version Number (Part1)	5
8	Manufacturer Id / HARD RESET	145
9	Motor frequency	55
